and Friday, except the
coast. Rain there to-
night. Lowering temper-
ature.

HOUSE HAS FINISHED DEBATE ON THE SHOALS

Coolidge Telegrams Read Today

PRESIDENT STATES WIRES REFERRED TO DISTRICT MATTERS

Formal Statement Is
Issued from the
White House

PARTY PARLEY ONLY SOUGHT

Coolidge Explains the
Purpose of Wires
to Mr. McLean

(Associated Press)

WASHINGTON, March 6—Submis-
sion to the oil committee today of two
telegrams sent by President Coolidge
to Edward B. McLean, of Palm Beach,
led the president to issue three for-
mal statements in explanation.

After the first of the messages had
been read into the public record, the
white house gave out a statement say-
ing it related to a government ap-
pointment in the District of Columbia.
The reading of the second message
was followed by a white house state-
ment saying Mr. Coolidge merely had
thanked the publisher for a message
of congratulations on his Lincoln
birthday speech.

Later it was announced that the sec-
ond statement had been in error and
that the second message really related
to a congratulatory telegram from
McLean on the President's reply to the
senate demand for the resignation of
Denby.

WASHINGTON, March 6—Two
telegrams sent by President Coolidge
to Edward B. McLean in Florida were
read today into the records of the oil
committee. Immediately afterward
the President issued a statement say-
ing that the matters referred to in
the messages related to questions of
local government in the District of
Columbia.

WASHINGTON, March 6—A tele-
gram from President Coolidge to E.
B. McLean, in Florida, was read in the
oil committee record today.

The message, sent on January 12,
said:
"Prescott is away. Advise Slemph,
with whom I shall confer. Signed Calvin
Coolidge."

Slemph was in then in Palm Beach.
Members of the committee said they
did not know who Prescott was. A
short time before the committee had
heard read a telegram from Chief
Doorkeeper McKenna, at the white
house, advising McLean on December
22 that Slemph was leaving that night
for the south.

Then an exchange of messages was
read, showing that on January 10, Al-
bert B. Fall, in Palm Beach, wired
Chairman Lenoort of the oil commit-
tee, asking "if Walsh has authority
to subpoena me to testify" and got a
response saying "he had not."

Senator Walsh, chief prosecutor of
the oil inquiry, had gone to Florida
to question McLean, but committee
records show he had been empowered
to summon such witnesses as he might
desire.

Means Wired Too

Gaston B. Means, a widely known
investigator, once employed by the
department of justice, wired to Mc-
Lean's secretary early in January that
he was on the way to Palm Beach.

President Coolidge telegraphed Mc-
Lean at Palm Beach again on Feb-
ruary 2, according to the telegrams.
"Thank you for your messages. You
here always been most considerate.
Coolidge joins me in send-
ing kindest regards to Mrs. McLean," the
telegram read.

The first Coolidge telegram was
sent after McLean had testified that
the \$100,000 loan he previously had
said was made to Fall on a note was
really in the form of checks which
were returned to him uncashed.

The second was dated two days be-
fore McLean was summoned here by
the committee to explain.

"Please see Senator Jim and find

SCIENCE PUTS O. K. ON THIS WEDDING.

Mrs. Malcolm McKenzie, formerly Miss Guinevere Robinson, stu-
dent of psychology at the University of California, is pictured here
with her husband, senior medical student at the university. They were
married only after taking and passing 100 per cent a psychological test
to insure a happy marriage.

TRADE HERE DRIVE INAUGURATED TODAY

Today the progressive merchants
and business men of Albany-Decatur
inaugurate a home trade campaign in
a series of editorials endorsed by
the chamber of commerce and Mayors
W. A. Britain and James A. Nelson.
The purpose of these advertisements
is not a call from the merchant indi-
vidually for you to trade with him
but a call from both towns and the
surrounding territory.

The merchants are calling attention
to the fact that they have the same
products that buyers asen go else-
where to purchase. They are advertis-
ing this section to the buyer outside
who can easily make this district his
headquarters for purchasing.

With each of these advertisements
an editorial is being inserted and it
will be worth your time to stop and re-
flect on what a dollar spent at home
will be worth to you compared to the
dollar spent at some far away town
or city that will never circulate here
again. This is a plea for you to forget
the attractively illustrated mail or-
der magazine, shelve it and buy where
you can see what you are buying and
get the full value of the purchasing
power of your dollar.

Read these advertisements in each
Thursday's issue of the Daily. They
were submitted by a specialist in the
line and the argument contained is
straight to the mark and true to the
form of the local merchants for fair
and square dealing.

Tax Reduction at Once Is Demanded

(Associated Press)

WASHINGTON, March 6—The sen-
ate finance committee decided today to
seek immediate enactment of a joint
resolution, providing for a 25 per cent
reduction in personal income taxes,
payable this year, so it may apply on
the installment due March 15.

All Pulaski Is for Ford Offer

PULASKI, Tenn., March 6—The
referendum vote taken here Tues-
day in regard to the Ford proposi-
tion of taking over Muscle Shoals
shows that this city is unanimously
in favor of it. Exactly 533 votes
were cast, everyone of which was
in favor of Henry Ford getting
Muscle Shoals.

SECRETARY WIRES HIS ACCEPTANCE

A telegram was received today by
W. W. Rahm, president of the Al-
bany-Decatur chamber of commerce,
from W. J. Meininger from his home
in Houston, Texas, stating that he
will be here soon to take charge of
the chamber of commerce as secre-
tary.

The telegram is as follows: "W. W.
Rahm, Albany, Ala., I acknowledge
receipt of and thank you and your di-
rectors for the telegram of this date
which is in response to my letter of
the first instant. Accordingly I shall
make my plans for departure at the
earliest date and inform you further
by letter in the morning.
Meininger."

Mr. Rahm stated this morning that
at no previous time had he been so
fully assured of full cooperation by the
business people of the cities, for a
larger and more effective chamber of
commerce.

AGREE TO REPORT A SOLDIER BONUS

(Associated Press)

WASHINGTON, March 6—Agree-
ment to report a soldier bonus bill was
voted 16 to 3 today by the house ways
and means committee.

No action was taken on the form of
the bill to be reported.
Representative Treadway, of Mass.,
Tilson, of Conn., and Mills, of New
York, republicans, were those voting
against approval of any bonus meas-
ure.

Farmhouse Burned Wednesday Night

The farm house on the McDuff
place, a few miles out of the Twin
Cities toward Hartselle was burned to
the ground Wednesday night, the orig-
in of the fire being unknown. The
house was occupied by W. H. Wilson
and family at the time, and all the
household goods of the Wilson family
were destroyed.

The house was the property of John
Maxwell and C. C. Robertson who
bought it from Gordon McDuff some-
thing over a year ago. A farm of
several acres surrounds the house. It
was stated by John Maxwell that
some insurance was carried on the
house and its contents.

CANCELLATION OF OIL LEASES TO BE SOUGHT "AT ONCE"

Bills in Equity Are to
Be Filed Next Week
by U. S. Counsel

FURTHER DRILLING WILL BE STOPPED

President Refuses to
Turn Over Income
Tax Returns

(Associated Press)

WASHINGTON, March 6—Cancel-
lation of the government oil lease to
the Doheny and Sinclair leases will be
sought in bills in equity to be filed by
the government oil counsel next week.
The bills will ask for return of the
naval reserve to the government, on
the grounds that fraud and illegality
were involved.

Injunctions also will be asked
against further drilling and withdraw-
al of oil by the Sinclair and Doheny
companies and the court will be re-
quested to name receivers to control
the properties pending completion of
litigation.

The bills for injunction have been
prepared by Atlas Pomerene and Owen
J. Roberts. They will be filed in
the federal district court for Wyom-
ing and Southern California.

Thursday, March 13, has been set
by the federal judge of Cheyenne for
a preliminary hearing on the Sinclair
contract, at which the government
counsel will be present.

At the request of the special coun-
sel, a special grand jury will be ap-
pointed here about March 1, to con-
sider the evidence so far brought out
in the oil inquiry.

WASHINGTON, March 6—Presi-
dent Coolidge today declined to turn
over to the oil committee the tax re-
turns of individuals and corporation
prominently mentioned in the oil in-
quiry.

Replying to a senate resolution
making the request, the President said
he had been advised by the acting
district attorney that he was without
authority to comply.

The President offered, however, to
co-operate with the secretary of the
treasury in an effort to secure an
amendment to prevailing regulations,
which would permit the oil committee
to inspect the returns if it desired.

Machinery Placed in New Building

Machinery is now being placed in
the new ornamental shop of the Decatur
Cornice and Roofing company as
recently erected on Avenue A. and
Second street, Albany.

The ornamental shop is one of a
number of buildings to be complet-
ed soon by this company. It is the
building located furthest north on
the six acre site of the company, of
the group of buildings now in course
of erection. This building is 100x180
feet, the minor additions to it, but
the main building of the ornamental
shop is only 100x100.

The work on all the ornamental iron
products of the Cornice and Roofing
company will be done in this building.
It takes the place of a similar build-
ing of the company located on Lee
street, which was destroyed by fire
some time ago.

This building has a concrete floor,
which is covered with wood.

Officials Inspect Gadsden's Streets

A party of Decatur officials today
left for Gadsden in an automobile,
to inspect the streets of that city in or-
der that ideas may be obtained re-
garding the character of material to
be used here. Included in the local
party were: Mayor James A. Nelson,
City Engineer M. S. Bingham and Al-
dermen Roper and Thomason.

REGIONAL LEADER OF BOY SCOUTS TO ORGANIZE TROOPS

Shriner Here Launches
Movement in Four
Valley Counties

EXECUTIVES WILL BE EMPLOYED

Part of Fund Alloted
to Albany-Decatur
For the Work

The arrival of C. E. Shriner, region-
al field executive of the fifth region
of the national council of the Boy
Scouts of America, comprising the
states of Alabama, Tennessee, Missis-
sippi, Louisiana and Arkansas, marked
the beginning of the active organiza-
tion of the movement on this city. Mr.
Shriner has just come from Louisiana
where he organized several councils
in the Northern section of the state
and Southern Arkansas. Mr. Shriner
will spend the next several weeks
here.

Albany and Decatur, according to
this representative, may become a
part of a council in this populous and
prosperous North Central section of
Alabama, which will ultimately em-
brace the counties of Madison, Lime-
stone, Morgan and Cullman. Huntsville,
Decatur, Albany and Athens will be
federated together to form the coun-
cil for this year, and the development
work carried on in these points, later
spreading out until it embraces every
town in the four counties.

To Employ Executive

A budget of \$5,500 has been esti-
mated as necessary to carry on the
work of the council for this year, of
which \$2,100 has been allotted to Al-
bany-Decatur. As soon as this bud-
get is raised a trained Scout Executive
will be employed who will give all of
his time to organizing new troops,
securing and training Scoutmasters,
providing meeting programs, and
plans for rallies, field days, and Com-
munity "Good Turns." Another fea-
ture of the new order will be the or-
ganized camping program which will
be carried out.

Surface Just Scratched

Mr. Shriner says there should be at
least 55 troops in the four counties
forming the council, and that a total
of 25 troops should be organized. Ac-
cording to these figures the surface
is just beginning to be scratched in
Decatur, and Mr. Shriner states these
figures cannot be made a possibility,
except through the organization of
a council such as is now being formed,
and in no place, not under the juris-
diction of such a council has Scout-
ing ever been a decided success. Al-
bany-Decatur should have at least ten
scout troops, he says.

While talking about the proposed
organization, Mr. Shriner gave some
interesting facts about the movement
which will be of interest to local read-
ers. He stated that 500,000 Scouts are
now enrolled, and that 142,982 men are
giving service in volunteer capacities.
Approximately 3,000,000 boys have re-
ceived the benefits of the movement
since its organization 14 years ago.
There are 2,700 fully organized and
equipped, standardized Boy Scouts
(Continued on page five.)

NASHVILLE STAYS IN RANKS OF THOSE FAVORING THE FORD BID

NASHVILLE, March 6—Definitely
re-aligning itself on the side of Henry
Ford in his effort to obtain Muscle
Shoals the Nashville Chamber of Com-
merce Wednesday voted 553 to 204 for
Ford's proposal, in opposition to the
bid made by the Associated Power
companies.

The result came through a referen-
dum conducted by the Chamber of
Commerce to establish clearly the po-
sition of the entire membership.

A total vote of 780 was cast, 23
having been disqualified because of ir-
regularities. There were approximate-
ly 920 members of the Chamber who
did not vote. Its membership is 1,800.
The Ford victory represents more
than a two to one vote, against the
power companies' bid.

Loses Two Husbands in Single Day.

Mrs. W. Claudman De Vinney

A divorce decree and an annul-
ment decree obtained on the same
day by Mrs. William Claudman-De
Vinney, of San Francisco, relieved
her from an awkward situation.
Believing her first husband was
dead, she remarried and later dis-
covered that she had committed
bigamy. Husband No. 1 being very
much alive. She will remarry
De Vinney as soon as her two de-
crees become final.

NASHVILLE PEOPLE ARE SLIGHTLY HURT

Mrs. R. H. Mayberry, her son, Roy
Mayberry, and Mrs. Elizabeth King,
all of Nashville are at the Lyons hotel
suffering from injuries received when
their Dodge car overturned at the
Flint Creek bridge on the Bee Line
highway between here and Hartselle
last night about 11 o'clock.

Mrs. Mayberry is suffering from
her left ankle which is so badly swollen,
it was found impossible to deter-
mine whether it is broken or not.

Mrs. King is suffering from a broken
rib, and other minor injuries. Roy
Mayberry, who was driving the ill-
fated car, escaped with minor injuries.

The car was too badly damaged for
use and the wrecked travelers were
brought to the local hotel late last
night by Earnest Morrow, who hap-
pened along in his automobile. Dr.
James Y. Hamill was called and is
looking after the injured people.

Seen at his hotel, Roy Mayberry
stated that he and his mother and
Mrs. King were on their way from
Nashville to visit relatives in Bir-
mingham, that they crossed the Tennes-
see river here, and were intending to
remain in the Twin Cities over night,
and that they would have done so,
but the ferry road being so far east,
the travellers were well south of the
cities before they knew it, and decided
to drive to Cullman before stopping.

BAND TO REHEARSE

The Albany-Decatur concert band
will rehearse tonight at 7:00 o'clock in
the rooms of the chamber of com-
merce.

Telegrams containing the result of
the referendum were immediately sent
to Senators Kenneth D. McKellar and
John K. Shields, and to Representa-
tive Joseph W. Byrns. They were signed
by W. R. Manier, secretary of the
Chamber of Commerce, and M. E.
Derryberry, President.

At 8 o'clock last night the election
commission composed of Vance J.
Alexander, chairman; Charles S.
Brown and R. C. Derivaux, presented
a written report of the referendum to
M. E. Derryberry, president. There
were less than half a dozen members
of the chamber in the building at that
time, and practically all of them were
officially connected with the referen-
dum.

GARRETT OPENS THE DISCUSSION FOR DAY, BY APPROVAL OF BID

Warm Endorsement of
McKenzie Bill Is
Given by Solon

TILTS WITH HULL FEATURE SPEECH

Both Sides Prepared to
Give House Benefit
of Many Speeches

(Associated Press)

WASHINGTON, March 6—The
house debate on Henry Ford's offer
for Muscle Shoals ended at 3:35 p.
m. today. The McKenzie bill, which
would authorize acceptance of the
bid then was taken up under the five
minute rule, with amendments in or-
der. Opponents of the Ford bid ten-
tatively agreed on a number of im-
portant amendments to be presented
during consideration of the measure
under the five minute rule.

The agreement was reached after
a day in which Mr. Ford and his of-
fer were alternately bitterly assailed
and denounced and then strongly
defended.

Chairman Madden of the house pro-
priations committee delivered a strong
appeal for acceptance of the offer,
declaring the Alabama Power Com-
pany, which opposed it, stood "repudi-
ated by its neighbors the people of
Alabama and condemned in the re-
cords of congress and by the depart-
ment of justice."

After each section was read, mem-
bers had the privilege of offering
amendments. Speakers were limited
to five minutes each amendment.

WASHINGTON, March 6—The
house today resumed discussion of
Henry Ford's offer for Muscle Shoals
shortly after convening at noon.

Leaders of both advocates and op-
ponents of the Detroit manufacturer's
offer had speakers to be heard in the
three hours and 14 minutes remaining.

Representative Garrett, democrat,
Tennessee, opened the discussion with
a warm endorsement of the McKen-
zie bill, providing for acceptance of
the manufacturer's proposal.

The manufacture of nitrate and fer-
tilizer, he said, is of primary consid-
eration in the development of Muscle
Shoals, and not waterpower. The need
of all states for fertilizer was reviewed
by Mr. Garrett, who declared this
feature of the Shoals project was vital
to all sections.

Representative Hull, republican,
Iowa, interrupted to ask if Mr. Garrett
had read the Union Carbide company's
offer to manufacture fertilizer at five
per cent and pointed out that Ford
wants eight per cent.

"I want to tell the gentleman from
Iowa," Mr. Garrett replied "that when
the secretary of war advertised for
sale Muscle Shoals, Henry Ford was
the only man to come forward."

Mr. Hull, replying to a remark by
Garrett, said he was not urging the
Southern Power companies bid and
had introduced a bill authorizing ac-
ceptance of the company's offer so
that the public might become familiar
with the proposal.

"In the last congress the Alabama
Power company never raised its hand
against the Ford offer, excepting re-
garding the purchase of the Gorgas
steam plant," Mr. Garrett declared.

Quinn Speaks

Representative Quinn, democrat,
Mississippi, ranking member of his
party on the house agriculture com-
mittee, in urging acceptance of the
Ford offer for Muscle Shoals, referred
to the national defense act, which he
said provided for erection of such a
plant to produce fertilizer for the
farmers in time of peace and manu-
facture of explosives in time of war.

Muscle Shoals was picked as the
proper place to erect the plant in 1917
he said, and it was then a wilderness
that had to be cleared away. Mr.
Quinn, during his speech, was pictur-
esque at times, assuming bellicose at-
titudes.

"A young city was put up," he de-
clared, "and after the armistice was
signed in 1918, men who opposed sec-
tion 124 of the national defense act,

Not more than one other bad weather spell, let us hope, and then the springtime.

Mr. Vanderlip doubtless expects to become poor, via the courts that exact libel money.

Henry Ford said the country would be safe under Coolidge, but he did not say for how long.

Goats are ridiculed for eating paper, tin cans, safety pins and the like; but imperial man takes in ignorant prejudices, rubbish and false theories.

THE BATTLE ON OVER THE MUSCLE SHOALS BIDS

If but half of what has been claimed as to the importance of a proper development of Muscle Shoals is true, then the battle now being waged in Congress for the acceptance of Ford's offer to do the job, is of vast moment. Many battles of great wars have not been as important except as regards loss of human life, as the battle for the Ford bid.

It is to be regretted that it was found necessary for Mr. McKenzie, the leader of the pro-Ford forces to have charged in the very outset that the enemies of the Ford bid had been resorting to deceptions, in that misleading statements have been printed from time to time, with the one purpose, according to Mr. McKenzie, to "deceive."

It would doubtless be claimed that a big streamer proclaiming that there are two sides to the controversy were also beside the merits of the two bids now up for the Shoals, especially when it is reflected there was no side at all to the entire proposition as to the Shoals development until Ford, out of mere good will for the American people, agreed to try to turn to practical advantage the vast power at the Muscle Shoals.

It can hardly be considered particularly inspiring that the battle over the disposition of the Shoals should have started out as it has. It does appear that with the facts as to the merits of the two bids before them so long, that men in the Congress of the greatest nation on earth could get a little closer together—a little nearer the facts in the case.

It would seem that outside the human element—the personalities behind the two bids—that the Shoals problem is merely one of facts and figures.

And since nobody can change facts and figures, why not take them up and settle by them in a manly, business-like manner.

Not that criticism is being made of Mr. McKenzie for making the charges of dishonesty—he ought to know, and if there has been dishonesty it should be openly charged against those little enough to practice it. The only criticism is that it seems a pity that the spokesmen in Congress of a great nation should have to speak as they do, and act as they do, rather than go into the matter on the real merits of the Ford bid, and the real merits of a man like Henry Ford.

NASHVILLE TO HAVE REFERENDUM ON SHOALS

Under the leadership of the Nashville Chamber of Commerce the people of that city will be called upon to vote tomorrow in a referendum on their preference as to the disposition of Muscle Shoals. The action of the Chamber of Commerce follows the representation of it of arguments by attorneys and other representatives of the Tennessee Light and Power Company in favor of the proposal of the allied power companies, and it appears that a number of leaders in the Chamber of Commerce have "fallen for" the representatives of the power people. That such should be the case is amazing to the people of Muscle Shoals district, and it is confidently expected that the people of Nashville will repudiate any suggestion that might favor power companies. The people

of this entire district have always been bound by the closest ties of friendship and business with those of Nashville and that section. Of the cities that form the corners of a quadrangle around this section they have relied more strongly on the friendship of Nashville and her people, and Nashville has always enjoyed the greatest patronage of the people of this territory. Linked by the Jackson highway, travel between the Tri-Cities and Nashville has been easy, and people from this section have been accustomed to "run up to Nashville" at any time the fancy struck them. That a movement with the purpose of frustrating the development of this section should gain recognition in Nashville is not only amazing to the people of the Tri-Cities, but is incomprehensible. That the newspapers of Nashville are staunch and unswerving in their support of the Ford offer for Muscle Shoals, and have entered the fight is gratifying, and was to have been expected. In an argument for the Ford offer in the Tennessean yesterday, which was prepared and signed, among others, by Major E. B. Stahlman, of the Nashville Banner, is the following strong expression on the subject:

The action of this Chamber of Commerce will be closely scanned by the people of Nashville, of this section, and of the South. These people are standing by Ford because of what Ford means—honest and strong competition in power, cheap fertilizer, and immediate and enduring stimulus to the commerce, agriculture and industries of the South. Their hopes are with Ford, and they are noting with a natural and absorbing interest every development as the hour of final decision is to be reached in Congress.

Should a Nashville business organization, with such a record, and of such prominence, seek now to give comfort to Ford's enemies, and repudiate its own record of distinguished and useful service, the city of Nashville will forfeit a large measure of the grateful and high regard of the merchants and farmers of Tennessee and Alabama who remember what the Chamber of Commerce has done for Ford and through him proposed to do for them.

Indeed it would be a practical impossibility for Nashville salesmen to sell anything in that territory. It is a stubborn fact, which we had better recognize right now.

Would it be wise for the Chamber of Commerce to deliberately and inevitably challenge public sentiment and the confidence of the citizenship of Tennessee and Alabama?

We say nothing of the regret, not to say indignation, that such a course might arouse in this community, which gives sustenance to that organization.

The issue which has been presented by this referendum to your consideration is fraught with serious and manifest public importance. The future of Nashville, of Tennessee; of Alabama, of the South, makes appeal to your judgment and conscience. We rest this case at that bar.—Florence Times.

DAIRYING SOUTH'S RISING STAR OF PROSPERITY

In an article found in the February issue of the Manufacturers' Record, Craddock Goins, of Milwaukee, declares that dairying is the South's rising star of prosperity. The writer says that in 1918 the states of Alabama and Tennessee had only 20 creameries, but that last year these states had 75 creameries.

The following are some of the "high" places in the article of Mr. Goins, as taken from the Manufacturers' Record:

"Where the dairy cow enters, poverty departs."

"The South is naturally favored for the up-building of a great farm prosperity through dairying."

"All-year pasturage, proper quality of soil for ideal dairy-cow feed, plenty of sunshine and fresh air for exercise of animals, cheap labor, inexpensive housing—these are some of the naturally favorable conditions for dairying in the South. It costs less to feed the cow in the South."

"Opportunities are bigger and better in the South. The temperate climate favors the dairy cow. The South is the only part of the country where land can be bought cheap."

"People in Minnesota, Wisconsin and Iowa are amazed at hearing of the marvelous, matchless agricultural resources of the South. They thought we raised nothing but cotton."

"The South today is riding on high tidal waves for Ford's favor."

WILL CONDUCT REVIVAL SERVICES AT CENTRAL BAPTIST CHURCH SOON

Gid. F. Higginbotham

President States Wires Referred to District Matters

(Continued From Page One)

out if there is disposition to make mutual friend make long journey," said a message sent from Palm Beach January 24 by W. F. Wiley to Ira Bennett. Wiley is manager of the Cincinnati Enquirer and Bennett is an editorial writer on the Washington Post, both McLean publications.

Statement issued immediately after the reading of President Coolidge's messages to McLean, the white house announced the President was preparing a statement. President Coolidge issued the following statement:

"The telegram related to the district commissionership, Samuel J. Prescott is the republican city man and the President desired to confer with him regarding district matters."

The telegrams read also included another "Mary" message, in which Mrs. Mary Duckstein, a secret agent of the department of justice, informed her husband, W. C. Duckstein, a McLean employee, that Barnes was uncertain when he could get away from Washington.

Miss Nina Eldridge Resigns Her Office

The resignation of Miss Nina Eldridge as director of the Tennessee Valley Branch of the Alabama state laboratories, has been accepted by Dr. L. C. Havens, chief of the bureau of laboratories, Montgomery.

Under Miss Eldridge's management the laboratory was established and the work of extending its facilities to the counties of the Tennessee Valley begun. The first year of work shows a volume of 8,800 specimens examined of which approximately 64 per cent are for the doctors of Morgan County. The month just passed shows the greatest number of specimens for any month of its history except July: 849 specimens being reported.

Miss Eldridge's resignation becomes effective April 1.

Mass Meeting Set for Falkville

A mass meeting will be held at Falkville Friday evening at the city public school building to be addressed by J. C. Ford, county farm agent and representative of the county health unit. Mr. Ford will take up a number of the problems now confronting the farmers.

Particular attention will be given to the boll weevil menace Mr. Ford stated the recent heavy rains had damaged the farms considerably, especially where farm terraces newly made had been washed badly. There will be moving picture slides displayed at the Falkville meeting.

Foster Company Sold to Partners

Foster's Incorporated has been bought by P. and Steele, it was announced Thursday, and will be operated under the name of the North Alabama Food Products company, with the home office here and branches in Louisville, Memphis and Decatur.

FOX TERRIERS REIGN

LONDON—England's most popular dog is not, as one might suppose, the English bulldog, but the fox-terrier. Of the 600 dogs of all breeds exhibited at a recent London show, more than a hundred were smooth or wire haired fox-terriers. Sealyhams were second favorites.

Why Fear Child-birth

EXPECTANT mothers do not undergo useless suffering any longer, and baby's birth can be made gloriously easier.

Mrs. Wm. Flack, 115 N. 12th St., Leavenworth, Kansas, says: "Mother's Friend" is the best help in the world for an expectant mother. I am the mother of three children and have found "Mother's Friend" fine.

"Mother's Friend" is externally applied about the abdomen, back and hips. It penetrates wonderfully, and in this way allows the muscles and ligaments to relax easily and readjust themselves to the changes during expectancy and at child-birth.

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradfield Regulator Co., B.A. 73, Atlanta, Ga., for free booklet containing valuable information every expectant mother should have.

"Mother's Friend" contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless groans and plain oils. Start using "Mother's Friend" now—the sooner the better. "Mother's Friend" is sold at all good drug stores—everywhere.

SHERIFF'S SALE

Under and by virtue of an execution issued out of the Circuit Court of Limestone County, Alabama, upon a judgment rendered therein against L. M. Warten, and in favor of the Central National Bank of Albany, Alabama, a corporation,

I, C. E. Poole, Sheriff of Morgan County, State of Alabama, will sell to the highest bidder for cash, at Decatur, Alabama, in front of the East Court House door, on the 31st day of March, 1924, within the legal hours of sale, the lands of L. M. Warten, in Morgan County, Alabama, described as follows, to-wit:

All of the right, title and interest of L. M. Warten in and to that certain tract or parcel of land beginning at the Southwest corner of lot 10, block 1, addition 2 of the Decatur Land, Improvement and Furnace Company's addition to Decatur, Alabama, extending from said point as a beginning point in a Southerly direction and along First avenue, to the intersection of said First avenue West and Gordon Drive; thence along the Northern boundary line of Gordon Drive in an Easterly direction to the intersection of said Gordon Drive, with a reservation of the Decatur Land Company; thence Northwesterly from said point to the Southeast corner of Lot 10, Block 1, Addition 2; thence along the Southern boundary line of lot 10, to First avenue, and the point of beginning, in the City of Albany, County of Morgan, State of Alabama.

C. E. POOLE, Sheriff of Morgan County, Alabama.

Garrett Opens the Discussion for Day by Approval of Bid

(Continued From Page One)

that provided for completion of the dam in 1921, asked all the world to bid for Muscle Shoals.

The Mississippi representative pointed out that the men who "pretended to oppose this proposal on account of the waerpower act" should be reminded that this was not passed until 1920. We can brush aside the smoke screen that they have raised as "irrelevant to this matter."

Need Fertilizer.

The fertilizer men in hearings before the committee had stated that there already was a surplus of fertilizer, Mr. Quinn said, but the farmers needed it. The freight rates on concentrated fertilizers will bring down the fertilizer bills, he said, and the farmers will have 80 per cent of the cost of fertilizer.

"Ford will save the government large sums of money," he asserted, "on the replacement of machinery and otherwise and we estimate that this saving would amount to \$80,000,000 in cash in 100 years."

"The farmers of the whole country are entitled to fertilizer at a reasonable price and we demand that something be done to give it to them," he continued.

Mr. Quinn urged his colleagues to "stand up for the poor man of this country who has no friends in the high places" and "support the Ford proposal." He characterized the Detroit manufacturer as "the only man in the United States who has guaranteed to carry out the proposal."

WASHINGTON, March 6.—The house talked itself out yesterday on Muscle Shoals, but adjourned determined to resume discussion of Henry Ford's offer today.

For nearly four hours debate which began Tuesday on the McKenzie bill providing for acceptance of the Ford bid, went along at a steady clip, then suddenly terminated when no one appeared willing to continue the discussion. Only 50 members were on the floor when adjournment was taken.

General debate on the bill, limited to 10 hours will be completed today clearing the way for the offering of amendments. Representative Hull republican, Iowa, leading the fight against the measure, said that at least a dozen amendments, which would materially alter the terms of the proposed contract would be offered.

Proponents of the McKenzie bill agreed to accept an amendment specifying that the heirs and assigns of Mr. Ford should be obligated for 100 years to carry out provisions of the contracts.

Powder Explosion in School Laboratory

(Associated Press)

STEBENVILLE, O., March 6.—Nine persons were injured, five of them seriously, when three pounds of gun powder exploded in the laboratory of the high school.

Moulton Resident Is Buried Thursday

John Howard Irwin, prominent resident of Moulton, will be laid to rest today, following funeral services at the Baptist church, conducted by Rev. U. E. Reed. Mr. Irwin died at his home there yesterday.

ACTRESS SPY WHO AIDED FRANCE GETS TEN YEARS
LEIPSIG—Alving Bruns, the film actress spy, who was recently sentenced to prison for ten years because of her activities on behalf of the French during the war, came to grief through her diary.

The woman worked for the French in Dusseldorf, Aachen and Nice. Her beauty made it possible for her to attract many men and the diary which proved her undoing showed she was frequently torn between many love affairs and had great difficulty in controlling her heart. With singular childishness she recorded her emotions as well as facts concerning her spy work in this diary which fell into the hands of German officers and proved her undoing.

She worked much of the time with a German medical student, who was also sentenced to prison for complicity in her espionage for which the evidence showed the woman received \$1,000 a month. She also involved another medical student in her work, but the two students fought about the woman and the one who lost out managed to escape from her clutches before he was hopelessly entangled in her career of espionage.

Prominent French diplomatists and many officers of various armies are mentioned in the diary among the men who succumbed to her charms.

Girls! Say Goodbye To Yellowish Teeth

New Safe Liquid and Special Paste
Whiten Stained Teeth—Instantly

Every man admires personal daintiness in the fair sex. But no girl can be truly dainty and charming with dull yellowish teeth. Bleachodont Combination costs only few cents and whitens teeth instantly. At home. Leaves teeth flashing white, lustrous, and clean. Contains mild safe liquid which loosens and softens stains—and a special paste which gently removes them. Works instantly. Quicker, surer, safer than old scouring methods which injured enamel. Money instantly refunded if not delighted with first application. Warning: Don't accept cheap liquid imitations. Always insist on genuine Bleachodont Combination the safe treatment. At all good dealers such as: S. M. Thompson, Albany Drug Co., Dillehay Bros., Freut-Dillehay—Adv't.

BLOW COLD, BLOW HOT, SCARFS ARE ALWAYS WITH US.
CAROLYN—I brought both back from Palm Beach, Lois, and that's why I feel safe in saying they will be popular this Spring. That rose silk sports scarf you're trying on has a lovely Chinese design, don't you think? And for evening there is nothing more delicate than this semi-circular scarf of black lace.

LINCOLN'S OFFICE BOY ADDS TO LORE ABOUT LIBERATOR

OMAHA—Epenetus Webb McIntosh, 79, civil war veteran and former office boy for Abraham Lincoln when the latter was a lawyer at Springfield, Ill., became a painter because the Emancipator started him at this trade. He continued as a painter until his age no longer would permit him to climb ladders and paint buildings.

In commemorating the birthday of the former president McIntosh, who was the first member of the Grand Army of the Republic, recited that Lincoln had mixed his first white lead for him and then described how he spent two days painting Lincoln's fence. When the job was completed Lincoln selected McIntosh to clean out his office, which he continued to do for about three years.

"Sometimes he would give me a quarter and then again he would give me fifty cents, but in those days you could buy a bushel of potatoes for three cents," said McIntosh in telling of his pay.

When he was seven years old, McIntosh related, Lincoln bought him a drum, carried by the aged veteran throughout the war, and which now hangs in the national museum in Washington.

When Lincoln was debating the wool question with Stephen Douglas, his opponent for the presidency in 1860, McIntosh accompanied him as his drummer on several of his campaign tours. The only compensation he ever received, McIntosh declared, were his expenses.

After Douglas had completed his talk, Lincoln got up, in sections, took

off his coat and laid it behind him. As he did so he stretched his long arms above it and said: 'Lie there, American wool, while I stone Stephen.' He won his debate by a wide margin," McIntosh asserted.

New German Discovery Promises Relief From Rheumatic Pains

From Leipsig, Germany, comes a report of the discovery of a newer method for the relief of pain in cases of rheumatism, gout, neuritis and neuralgia without the use of internal medicines. The discoverer, Jacob Buhler, of Stuttgart, Germany, has undoubtedly proved that in even the most advanced and stubborn cases the sufferers often secure relief the very first day.

Buhler proceeded on the theory that rheumatism is often caused by internal abscesses (such as a blind pus pocket in a tooth), giving off poisons which are absorbed by the blood and carried to the joints and muscles where they set up inflammation and intense pain. When the inflammation appears in the muscles or joints, it takes the form of rheumatism, but where the delicate nerve sheath becomes inflamed it causes neuritis or neuralgia. To neutralize these poisons, Buhler compounded a new form of oil intended to penetrate to the affected joints and muscles and neutralize the poisons in much the same way that bicarbonate of soda or magnesia neutralizes an acid stomach. As a result the aching joints are soothed, the annoying pains and inflammation, stiffness and swelling are relieved in many instances with even the first few applications.

NOTE—The oil referred to above is known in this country as Buhler Oil. At the present time, the following druggists report that they have secured a limited quantity of Buhler Oil for distribution in this city. So remarkable have been the results from the use of Buhler Oil that these druggists are giving their customers a written guarantee to refund the price in full to all purchasers of Buhler Oil who fail to get immediate relief. On sale at: Albany Drug Co., S. M. Thompson, Dillehay Bros., Freut-Dillehay Drug Co.—Adv't.

Don't Pay \$1,000 or More for a car, without knowing what the leader offers in the fine-car field

WE made a canvass of many who bought rivals of Studebakers. We said, "Tell us why you liked your car the better." The majority said, "We did not even look at the Studebaker." Most of them bought new models of the car they owned before.

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world.

Studebaker is the sensation of modern Motordom. Its amazing growth signifies a new situation in this field.

Last year, 145,167 fine-car buyers paid \$201,000,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons for this trend?

Facts to consider

Studebaker assets are \$90,000,000 — all staked on satisfying, better than others, buyers of high-grade cars.

Over 23,000 men have their future at stake on giving you maximum values.

\$50,000,000 in modern plants and equipment, of which \$32,000,000 has been added during the past five years.

\$10,000,000 in body plants to give you superlative beauty. To give that final touch for which Studebakers have been famous for decades.

125 experts who devote their whole time to studying betterments. Who make 500,000 tests per year to maintain our supremacy.

Consider Studebaker history. For 72 years this concern has stood for high principles and policies.

For two generations, against all the world, it held first place in horse-drawn vehicles.

LIGHT-SIX

Sedan	1485.00

Now for years its name and fame have been committed to like attainments in fine motor cars.

If you only knew

There is no room here for details and comparisons. You will find them all in Studebaker showrooms. But let us cite some significant facts.

That lack of vibration, so conspicuous in Studebakers, costs us \$600,000 yearly in extra machining of crank shafts.

That matchless strength in vital

See the Studebakers

Studebaker builds more fine cars than any other plant in the world.

Last year 145,167 wise motor car buyers paid \$201,000,000 for Studebakers.

The demand has almost trebled in the past three years. Studebaker now holds a leading place in the high-grade field.

Our modern plants and their equipment cost \$50,000,000. All to give you the maximum value at the minimum of cost.

It is folly to buy a car in this class without knowing what we give.

parts comes from the costliest steels. For some we add 15% to the quoted price to get exactness in them.

That Chase Mohair, used in our closed cars, is made from the soft fleece of Angora goats. Cotton or ordinary wool, or a combination of both, could reduce our price \$100 to \$150 per car, but it would sacrifice Studebaker quality.

Note the bumpers, the steel trunk, the extra cord tires, the motometer, the courtesy light on some models. Figure what they would cost as extras.

The infinite care

We use 35 formulas for steel, each

SPECIAL-SIX

5-Pass. 119" W.B. 50 H.P.

(All prices f. o. b. factory. Terms to meet your convenience)

worked out to exactness for supreme service in its place.

We employ 1,200 inspectors to make 30,000 inspections of the material and workmanship in each Studebaker car — before it leaves the factory.

Consider how Studebaker has always led in the building of high-grade cars. We were first to use cord tires as standard equipment. We were the first quantity manufacturers to build bodies of the highest grade.

If you want beauty, fine upholstery, rich finish and equipment, consider that Studebaker has had more experience in fine coach building than any other motor car maker.

Our place no accident

The pedestal place which Studebaker holds in the fine-car field is not the result of accident. It comes from principles as old as this business—the ceaseless and determined ambition to excel.

Learn the result of these efforts. Compare detail by detail, part by part, with any car you wish. When you foot the advantages, you will find that they number scores.

These are facts you should know. They are inducing 150,000 per

year to choose Studebaker cars.

Some sell at \$1,045. Some meet with every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

People have learned these facts—hundreds of thousands of them. The demand for Studebakers has almost trebled in three years. It has become overwhelming, even for our facilities. Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

MRS. McKENNA HOSTESS.

Andrew McKenna on Tuesday and she The C. C. Club were guests of Mrs. entertained them at the home of Mrs. James Mitchell on Lafayette street. The rooms where the tables were placed for the club game were tastefully decorated with spring flowers including a profusion of yellow jonquills.

A beautiful pair of pillow slips were presented to Mrs. C. O. Foote who made high score. Mrs. Mitchell received second prize, a hemstitched sheet and the consolation souvenir, three handmade towels were awarded to Mrs. C. J. O'Bryan.

At the conclusion of the presentation of the prizes, the hostess served a lovely plate luncheon and on each plate was a small bouquet of the spring flowers and later an ice course.

This was one of the most delightful meetings of the year and was also the last until lent is over with the exception of St. Patrick's day when they will meet with Mrs. C. J. O'Bryan.

COMMITTEE OF FEDERATED SOCIETIES TO MEET.

The Social Service committee of the Federated Missionary Societies will meet at the home of Mrs. Virginia Graham on Friday at 2:30 p. m. A good attendance is desired.

Mrs. Castleman Estill of New Orleans, La., is the guest of Miss Unity Dancy en route to Huntsville, where she will visit.

Mrs. F. M. Robertson is entertaining the Thursday Bridge Club this afternoon at her home on Canal street.

Miss Lucille Emens has returned to Athens College after a short visit to her sister, Mrs. Melvin Hutson.

Little Pauline and Lady Helen Huie and Alvin and Grady Huie have recovered from attacks of measles.

Little Noel Carpenter is recovering from a several weeks illness when he suffered with whooping cough and measles.

Mrs. T. V. Harrison is spending a few days in Montgomery.

Mr. and Mrs. Roy Eite and children have moved to their new home on Third avenue West.

ART DISPLAY AND LECTURE.

The State Federation of Clubs Art exhibit will be on display at the Decatur High school all day Friday. Saturday afternoon an art lecture will be given at the Carnegie Library in connection with the display of American sculpture.

MARRIED LADIES BRIDGE CLUB.

Only club members were present at the meeting of the Married Ladies Bridge Club on Wednesday afternoon with Mrs. B. P. Wallace as hostess. The club prize for top score was awarded to Mrs. W. K. McNeill.

Mr. and Mrs. C. B. Elliott and Mrs. W. H. Montgomery have returned from a visit to Colonel T. T. Ashford at the Plantation near Mooresville.

Mrs. R. A. Frazier of Memphis, Tenn., is expected to arrive today to be the guest of her sister, Mrs. Melvin Hutson at her home on Jackson street.

Little Theda Hadley is ill with bronchitis at her home on Fifth avenue West.

PERSONALS

Douglas Humphrey continues ill at his home in West Albany.

P. R. Hutson is reported resting as well as could be expected this morning following an operation on Wednesday.

Gus Hildreth is ill at the home of his parents, Mr. and Mrs. Harold Hildreth.

Clarence Birdshaw has returned from a visit to Cincinnati, Ohio.

J. W. Frahn is confined to his home with an attack of gripe.

George Friedkin is spending several weeks with his family here.

J. L. Echols is in Birmingham today.

Burton Considered in Denby's Place

(Associated Press)

WASHINGTON, March 6.—Theodore E. Burton, present member of the house and former senator from Ohio is being considered by President Coolidge for appointment as secretary of the navy.

The Ohio representative is understood to have the support of Senator Fess and Senator Willis, of Ohio, and despite his advanced age is being urged to take over the navy post.

All indications today pointed to the selection of a secretary to succeed Edwin Denby, before the end of the week.

Physicians Meet in Regular Session

The Morgan County Medical Society is holding its regular monthly meeting at the Morgan County health unit apartments on Second avenue. The president, Dr. A. T. Grayson, is presiding, and Dr. H. C. McRee, the county health officer, is the secretary. Routine business is occupying the time of the physicians.

Candler Suit on Trial Thursday

(Associated Press)

DECATUR, Ga., March 6.—Trial of the suit against Walter Candler, son of Asa G. Candler, Sr., Atlanta millionaire soft drink manufacturer, for \$100,000 damages, brought by Mrs. Sara Byfield, also of Atlanta, was called today in the DeKalb County superior court.

CARD OF THANKS

We wish to thank our many friends for their kindness shown us during the long illness and death of our precious loved one, especially do we thank each one for the beautiful florals and use of cars. And to the Legion boys who so tenderly bore him to his last resting place, May God's richest blessings abide with you.

Mrs. L. J. Whitley and baby Charlotte.

Mrs. George Whitley.
Mrs. R. B. Mangrum.

AMUSEMENTS

What the Press Agents Say

Enter Charles Chaplin in the pulpit.

The inimitable comedian has been a tramp, a soldier and a dude on the screen, but now he blossoms forth in the fall regalia of a parson.

In "The Pilgrim," the First National picture which will be shown at the Princess theater on Friday and Saturday, he discards his battered derby and swagger cane of other film triumphs for the clerical hat and frock.

Charles' ministerial garb is stolen property, however, for he portrays an escaped convict who exchanges his prison stripes for the clothing of an unsuspecting parson in swimming.

The complications which ensue when an eloping couple endeavor to get "The Pilgrim" to marry them and when he is unwittingly forced into the pulpit by a chain of extraordinary circumstances, are among the most ludicrous ever screened.

"The Pilgrim," like all of the comedian's starring vehicles, was written and directed by Chaplin himself. It is a feature production in four reels and accords to preview reports, rivals that screen classic, "The Kid."

Watson Denies He Is "Senator Jim"

(Associated Press)

WASHINGTON, March 6.—Mention of "Senator Jim" in a telegram exchanged between W. F. Wiley of the Cincinnati Enquirer and Ira Bennett, of the Washington Post led Senator James E. Watson, of Indiana, to issue the following statement today, saying he knew nothing about it:

"It do not know Mr. W. F. Wiley. I do know Mr. Ira Bennett, but he never talked to me regarding the inquiry contained in Mr. Wiley's telegram."

CARD OF THANKS

We wish to thank our kind neighbors and friends for their kindness shown us during the last hours of our dear husband and father and for the beautiful florals and use of cars.

May the Lord bless you all.
Mrs. H. J. Clendenon and Pleasant.
Mr. and Mrs. D. V. Day.
Mr. and Mrs. I. S. Clendenon.

SIR KNIGHTS

Demolay Commandery No. 14 K. T. will meet Thursday March 6th at 7:30 p. m. for election of officers, for the ensuing year, and to transact such other business as may be necessary. All Sir Knights are cordially invited to attend.

HOBOKidney & Bladder Remedy Got Results

"Blanchard, La.

Oct. 8, 1922.
You ask me to write and tell you what the Hobo has done for my son. It sure has cured him of Bright's disease but he took 3 or 4 bottles before we could tell it was doing him any good.

Now he is as well as he ever was tho, he still takes a little, along about one or two bottles during the year. He took about 30 bottles of the Hobo medicine.

R. M. Flowers."

Late in the winter of 1918 Homer Flowers was suffering from what the family doctor said was "Brights Disease." The story of his taking Hobo and the complete recovery that followed has been told in our advertising since that time. The letter above was written in answer to an inquiry of another sufferer addressed to Homer Flowers' father.

Hobo Kidney and Bladder Remedy is an herb remedy—it contains no alcohol or habit-forming drugs—gets results and leaves no bad after effects. Druggists sell Hobo for \$1.20 per bottle.

A Chance to Earn \$50 a Week

We want to get in touch at once with a wide-awake man or woman to represent our company exclusively in this territory. The usual earnings are from \$35 to \$50 a week. The work is pleasant. The position is permanent. Selling experience is not necessary. We have a good proposition to the right party. Write at once giving age, whether employed at present, and length of time you have lived in your community.

SHERIFF'S SALE

By virtue of execution Fieri Facias issued out of the Clerk's office of the circuit court of Houston County, and State of Alabama, and to me directed whereby I am commanded to make the amount of a certain judgment recently obtained against L. L. McCulloch vs. Decatur Fertilizer Company out of the goods, chattels, lands and tenements of the said L. L. McCulloch, I have levied on the following property, to-wit:

A one seventh undivided interest in and to the following real estate. N. 1-2 of N. W. 1-4; Sec. 1-T. 6. R. 5; 80 acres. S. 1-2 of S. W. 1-4 of N. E. 1-4; 10-T. 6 R. 5; 20 acres. N. 1-2 of N. W. 1-4 of N. E. 1-4; 11-T. 6, R. 5; 20 acres. N. 10 acres of N. E. 1-4 of S. E. 1-4; 11-T. 6, R. 5, 10 acres. Also lots 13 and 15 Block 3, Jervis addition, Decatur, Ala.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title, and interest of the above-named L. L. McCulloch, in and to the above-described property, on Monday, the 31st day of March 1924, during the legal hours of sale, at the court house door in Morgan County.

Dated at Decatur, Ala., this 28th day of February 1924.

C. E. POOLE

Sheriff of Morgan County, Ala.

Feb. 23-March 6-13.

Notice of Application To Probate Will

State of Alabama,

Morgan County.

Feb. 21-23-Mar. 6.

Chance for a Comeback.

It may be true that the old home

ain't what it used to be, as the song

says, but some of its glory could be

recovered if the girls would learn how

to make real pie.—Wabash Times-Star.

New York Letter

by Lucy Jerome Price

NEW YORK, March 6—A sixty-cent prayer book given Louisa Chapman at the age of twelve has brought her half a million dollars now that she is 85. It is upon the inscription in the book, "To Louisa from her father, G. M. C." and below that her name, "Louisa C. Chapman, 1851," that the Appellate Division of the Supreme court has declared that Louisa now Mrs. Louisa Ellis, is the legitimate heir to half a million dollar estate left by the late George N. Chapman. His father and mother were married at Greta Green, in Scotland and later he repudiated the marriage and installed another woman in his home. Subsequently he and his first love were reconciled and he returned to her, but failed to make provision in his will for her or their child. Other heirs had declared that there never was a marriage and that Mrs. Ellis was not his legitimate daughter. The inscription in the prayer book convinced the courts, however.

The milking contest threatens to rival golf as the great All-American occupation. United States Senator Magnus Johnson, the famous "dirt farmer" of Minnesota, has been visiting his friend, Bernard Macfadden, "the father of physical culture," at his Nyack home. When they came into Manhattan the other day, the senator announced that he had challenged Mr. Macfadden to a milking contest to be held this spring at the Nyack farm. "You know Bernard was raised on a farm," he explained, "and at the age of eleven was milking a herd of ten cows every morning and evening. But that was many years ago, while I keep in practice by milking my cows whenever I am at home." Physical culturists will wait with interest to find out whether a mere U. S. Senator can defeat their leader at anything so close to nature as milking a cow.

How the age of specialization does press upon us. The following advertisement appeared in my morning paper: "Wanted—young man stenographer. Opening in large wholesale clothing manufacturing concern for young man of good appearance who wears size 36 or 37 coat and has knowledge of typewriting and stenography state age, education and salary expected."

Nothing wears quite such a glamor of romance as does a suit of armor a real one, made and worn in the middle ages, when knights wore their ladies' colors into battle and jostled with spears instead of hitting at golf balls. A rare specimen has come into possession of the Metropolitan Art Museum, dating back to 1550, and said to have been made for a member of a royal family of that time. It is beautifully ornamented with bands of etching, with a closed helmet of the "bird-faced" type, bearing a coat of arms and three stars of gold. The outfit includes a chamfron, or frontal piece for the horse's head, surmounted with a gilded star.

We are becoming an erudite country, indeed, when scientific revelations in far off regions of the Nile arouse the same heat and spur to combat among the practical workmen as do a difference of opinion over ward politics. That doesn't refer to Cleopatra and her affairs but to a more wholly intellectual concern, the investigation of King Tut's quarrel between Howard Carter and the Egyptian government found. Its way into a Brooklyn factory yesterday and later into the police court. One Ara Villett held that Carter should reopen the tomb, while Joseph Edfo, himself an Egyptian, defended that country's side of the question, using his argument. Villett acquired a battered head in the interests of science.

Formosan Mission To Study
Filipino Educational Methods

MANILA—An educational mission appointed by the government of Formosa to study educational methods and school systems in the Far East expects to spend several weeks in the Philippine Islands. The mission headed by M. Ono, inspector of education for the Formosa government, is composed of Japanese professors and instructors.

The mission has made visits to several places in China.

Wales To Question Candidates
For Parliament on Local Opinion

PRESTATYN—Candidates for parliament from Wales are to be subjected in the future to an examination as to whether they will support a local option bill for Wales. This was decided at a recent meeting of the North Wales Temperance Federation.

It was declared at the meeting that the tide of temperance is rising. A protest was made against the issuing of circulars through the post urging people to join syndicates for the shipping of liquor to America.

EDITOR DISCUSSES SHOALS QUESTION

E. K. Slater, editor of The Ice Cream Review, in the March issue discusses the Muscle Shoals question, declaring he finds business men of the South for the offer and he reasons that surely "they can't all be wrong," and for that reason believes there is something good in the proposition. The Olsen Publishing company, publishers of The Ice Cream Review, also publishes a number of other periodicals which have an immense circulation over the United States.

His article follows: Everywhere we go we hear but one subject discussed. Folks here are not interested in politics, except as they affect the Muscle Shoals project. In the hotels, on the trains, in the business houses, on the streets, everywhere you find men earnestly discussing this great absorbing topic. We have yet to hear a voice raised against the plan to lease the project to Henry Ford. We surmise that if there were any voices raised against it originally those voices have been stifled. Unanimous approval might have been it is surely effective.

We called on our good friend, J. W. Clepton, Decatur, Alabama, who is secretary of the Southern Association of Ice Cream Manufacturers. Like all the rest, he is an enthusiastic booster for the Muscle Shoals project and gave us a clearer idea of its importance to the Southern states than we ever gained before.

We reasoned thusly: surely if the business men of the South are all back of this thing then they must be right. Surely they can't all be wrong. We determined right then and there to see Muscle Shoals. We changed our itinerary and spent an entire day seeking information right on the spot where history is being made.

We came away full of facts about this mighty undertaking and a firm conviction that these folks know what they want. The man who has looked upon the mighty Niagara can particularly comprehend the immensity of the Muscle Shoals project. The man who has not looked upon Niagara in her glory and power cannot possibly understand the bigness of Muscle Shoals. Neither, unless he lives in the South or has visited it recently, can understand what it means to these people.

It is not the policy of The Ice Cream Review to discuss politics, but this is not a political question. When the people of a great section of our country, who know what they need better than other folks, are unanimous in asking for a thing we believe they should have it unless it is going to harm someone else.

Here are the people of this great southland, corely in need of things that will build up business enterprises asking that congress accept Henry Ford's offer to operate Muscle Shoals for the benefit, not only for the South but for the entire country. We say, let them have what they want.

Those who object to Henry Ford's offer want to see Muscle Shoals operated by the government. Undoubtedly this plan would also benefit industry but we are only stating a fact when we say that the business men in the South would rather see this huge undertaking in Ford's hands than mixed up with politics.

The ice cream industry of the South will be greatly benefited by improved economic conditions. It needs such an impetus as their brother ice cream manufacturers in other sections can, we believe, perform a real service for the industry by putting their influence on the side where the ice cream men of the South, along with all other business men, are found.

Why not lend our influence toward helping our brothers in the South who surely know what they want? Why not urge our senators and representatives to work and vote for the adoption of Ford's offer which is now before congress? Who is going to boost for the things that help our industry if we don't?

Stops Asthma Discomfort and Annoyance Often in 24 Hours

Asthma, Hay Fever and Catarrh are responsible for much misery and failing health. If you are a sufferer from wheezing, sneezing, difficult breathing, hawking, raising phlegm, etc., to prove that you can stop these troubles quickly and easily with the pleasant, scientific Florence Formula, I will send you a \$1 bottle postpaid and free of charge or obligation. If it satisfies, tell your friends and pay me only one dollar, otherwise the loss is mine. Merely send your name today for this liberal free introductory offer—good only for 10 days. F. Regional Leader of Boy Scouts to Organize Troops

(Continued From Page One)

camps, capable of accommodating 250,000 boys at one time with trained leaders. In the summer of 1923, 225,000 Scouts were in camp from one to three weeks. There are 20,437 troops in the United States, located in approximately 9,000 towns and cities. About 75 per cent of these troops are organized in churches of all denominations. During the 14 years of Scout history, merit badges have been awarded to scouts to a total of 544,755, of which 149,858 were awarded in 1923, practically twice the number awarded in 1920, showing the increasing interest taken by Scouts in the more serious side of the program. A total of 34 Gold Honor Medals have been awarded to Scouts who have saved, or tried to save the lives of others at the imminent peril of their own, 589 merit badges have been awarded for extraordinary heroism in saving or trying to save life. These handbooks, three monthly magazines, countless pamphlets and helps are published by the Boy Scouts of America. The Boys Handbook has reached its 29th edition, 1,165,400 copies sold and Boys Life, the official boy Scout magazine, reaches more than 120,000 boys monthly.

SWEDISH CHURCH CHAPTERS AGAINST WOMEN MINISTERS

STOCKHOLM—The government committee appointed to investigate the demand of Swedish feminists that women be allowed in the Swedish State Church on an equal footing with men has reported in favor of the women. The committee, however, recommended a careful selection and gradual admission and, at first to those clerical posts, which would benefit most from the kind of service for which women are peculiarly fitted.

Opinions on chapters all over Sweden have been requested by the government. While all the chapters emphasize the great value of women in Christian and parochial work in general and urge further utilization of their services, virtually all voiced strong objection to the admission of women to the pulpit.

CARD OF THANKS

We wish to express our thanks for the many deeds of kindness, and words of sympathy extended us during the illness and death of our dear wife and sister, Mrs. O. A. Branch. Also for the beautiful flowers and the use of cars.

Fate Branch,
J. M. South,
W. B. South.

Sea-Hares for "Spider in Cup."

Sea-hares, small sluglike mollusks, were notorious among the ancients for their supposed venomous properties and were often used as ingredients of poisonous potions.

Breadfruit.

The breadfruit, with the coconut and banana, furnishes the chief food of the natives of the Pacific islands. That is why we call it "breadfruit," because, for them, it takes the place of bread. Apart from its fruit, the tree itself is a very useful one, for, when beaten out, the inner bark forms a fine white cloth called tapa cloth.

Starboard.

The word starboard is probably derived from steer board, and became identified with the side of the ship to the right of a person at the steer board, and facing the bow. The word larboard was used to designate the side to the left. This term has been superseded by the word port, in order to avoid the confusion caused by the similarity of names.

First Step in Treatment Is Calotabs, the Purified and Refined Calomel Tablets That Are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds, coughs, sore throat, and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the nausealess calomel tablets called Calotabs, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and colds and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One or two Calotabs at bed time, with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, sleeping or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Genuine Calotabs are sold only in original sealed packages, price thirty-five cents for the large, family package; ten cents for the small vest pocket size.—Adv.

MY HUSBAND'S LOVE

Adele Garrison's New Phase of Revelations of a Wife

Copyright, 1924, by Newspaper Feature Service, Inc.

Madge Used Her Eyes Leaving the House.

I STARED in amazement at the course the shrewd-faced young driver of little Mrs. Bird's car was taking. To my eyes he seemed to be heading straight toward the gentle declivity at the back of her grounds which hid the bay from us, and which I was sure held no possible track for any vehicle. At our left, dividing the place from that of the nearest neighbor, was thick and high evergreen hedge, a continuation of the one screening the house. This appeared to stop at the underbrush which grew at the bottom of the hill. But just as we reached the end of the hedge the driver swerved his car sharply to the left, and drove it skilfully through a narrow opening made by taking out two of the evergreens. We came out upon a rough bramble-strewn path which had had ashes strewn over it, but which would have been hard going for any kind of car save the light, sturdy variety in which I was seated.

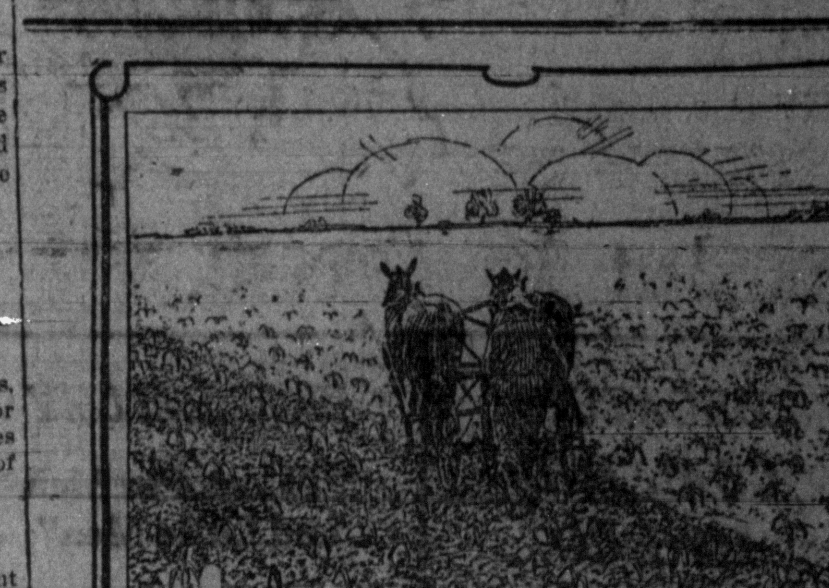

"This isn't very good going," the driver volunteered, "but it's a short cut in good weather. The deliverymen to these houses along here use it quite a lot, for the people don't like to have cars drive into their front gates."

The explanation was a lame one, but redeemed by the fact that we met a grocery cart and a meat wagon on the ratty and spring-mattened path. I fancied, however, that there was some sort of signal communication among the three drivers, and wondered if the deliveries of the marketmen were not made upon the inconvenient route purposely to give an excuse for the occasional journeys of Mrs. Bird's car.

Madge's Careful Scrutiny. Scoring myself for my too vivid imagination, yet I resolved to observe closely every incident of the journey. Lillian had said that the woman to whom she was sending us was extremely resourceful, and everything which she had done so far proved my friend's assertion. I felt that our expedition was safe in such hands, and I promised myself much pleasure in watching the details of Mrs. Bird's forthright as they should appear.

The hill which shut us off from the bay gradually sloped down to the level, and soon I was able to see the distant water across meadows covered with the dried stalks of what in the summer I knew must be a lush growth. There seemed to be no way of approach to the water across the meadows, but about half way between the water and the houses, at the rear of whose grounds

Discovery of X-Rays. The property of X-rays to penetrate solid matter was discovered by accident through leaving a key on top of a desk beneath which photographic plates were kept. When the plates were developed the shadow of the key was seen.

Simple, Reliable, Efficient

There are many features of the Oliver No. 2 Walking Cultivator which render it a very profitable purchase in this section.

It is extremely simple, reliable and efficient, features that give to it the ability to do good work even in the hands of inexperienced operators.

The shanks can be equipped with either shovels or sweeps. Spring tooth attachments can be furnished for surface cultivation.

The successful performance of the No. 2 is attested by its many users.
